miRESIDENT SIP Emergency Call Unit

Description

The miRESIDENT SIP Call Unit is a wall mounted speakerphone and alert system that operates over your local network. It can be used with or without a miALERT Event Management Server. Power is supplied by PoE, with no requirement for a separate dedicated power supply.

The miRESIDENT can connect wirelessly to miPOSITION G2 Pendants and other miALERT wireless G2 devices to transmit alerts to the Event Management Server. It can also connect to wired miBUS peripherals.

Customisable face buttons allow for sending alerts to a connected phone system or miALERT Nurse Call System.

Features

- Power and communication supplied over a single analogue phone line.
- Connects to miALERT miBUS wired peripherals
- Connects to miALERT miNET Gen 2 wireless devices.
- 6 customisable face buttons; contact miALERT Sales for more information on custom button options.

Specifications

Unit: 170mm x 124mm x 45mm
